Relevance

Today, within the cryptocurrency world, there is a huge number of different popular projects, the main basis and backing of which is their team, the website, and for the most part, the belief of the people themselves in this project.

Our team solves an important problem concerning the fundamental basis, in which the project will be linked to the real economy in the form of a functioning business with a well-developed digital ecosystem. In today's realities of the crypto-world, this sphere is just beginning its way of development and we are among the first who plan to make it a reality.

Mission and purpose

- The goal of the project is to create an international network under a single brand.
- The mission of the project is to provide customers around the world with a huge range different types of goods and services.

Products

Sendde is a new generation message board, where absolutely anyone has the opportunity to buy, sell, exchange goods or services in various areas activities.

The company has its origins in Austria with the prospect of developing and selling its franchises around the world.

This is a truly unique project, unparalleled by the fact that by market analysis of competitors and search for their advantages and disadvantages, the project Sendde was able to incorporate the most advanced technologies and innovations to increase the comfort of our customers.

Thanks to the hard work of our talented team we have developed a core range of products such as:

Sendde Author Magazine

This product gives our customers the opportunity to develop their skills in the direction of social media:

- Writing articles (scientific, news, etc.)

- Video content

- Personal brand

- Business direction

The main and perhaps the key advantage of this product is the monetization of your own work. The more author is in demand, the greater the level of potential earnings.

Charity

Sendde's good deeds project is called "Gifted". This project has a great international and social significance for us. The main task of this project is to gather a large international community of people, who will have the opportunity to become ambassadors of good deeds. Any participant of this project can provide on a gratuitous basis:

- Goods (clothes, shoes, furniture, appliances, food, toys, etc.)
- Services (educational, legal, medical, tourist, entertainment, etc.)

Auction

This direction was created for the purpose of public sale of goods according to predetermined rules. For the most part, the main spectrum consists of the following goods:

-Art

-Antiques

-Collectibles

-Historical rarities

Sale of digital assets

- Video

- Music

- Games

- Game attributes.

NFT service

The first infrastructure for creating and trading NFT with instant and free coinage.

Sendde Coin

SETC is a proprietary decentralized asset, an investment product of an international holding company, based on the TRON blockchain.

Its main task is to form the basis for the formation of a further range of services and products, as well as for optimization as part of the use of the Sendde ecosystem.

Uniqueness

The main feature of Sendde Coin is the fact that it is the fundamental basis within the operating business, which in turn operates in the real economy.

This is a product that serves as a full transparency of trade relations between participants and, as a result, leads to an increase in trust between them with guaranteed collateral.

Listing on exchanges

At the moment our company is negotiating with several popular exchanges for the listing of our asset. In the future, the team plans to reach out to a number of other major exchanges by capitalization with the purpose of convenience and to meet the needs and desires of our clients.

Legal regulations

Sendde intends to conduct its business in full compliance with applicable laws and regulations and with the ability to obtain the necessary licenses and permits, if required. Regulatory licenses and/or permits are likely to be required in a number of relevant jurisdictions in which activities may be conducted. This means that the development and implementation of all of the initiatives described in this white paper is not guaranteed. As a result, the initiatives described herein may not be available in certain markets or may be prohibited altogether. For the time being, however, our company operates in the Austrian jurisdiction in compliance with all laws. This may require a restructuring of the entire Coin ecosystem and/or outright unavailability of the desired changes in all or some aspects. In addition, it is expected that the development of any initiatives will be done in stages. At certain stages of development, the project may rely on relationships with certain licensed third parties. If these entities are no longer properly licensed in the relevant jurisdiction, it will affect Sendde's ability to further develop in that country.

Without obligations

To the maximum extent permitted by applicable laws, rules and regulations, Sendde shall not be liable for any indirect, special, incidental, consequential or other damages of any kind arising out of an offense, contract or otherwise (including but not limited to loss of income, profits and loss of the ability to use the data), arising from or in connection with any acceptance or confidence in this white paper or any part of it by users. You are not allowed to transfer this technical document to any jurisdiction where this technical document is prohibited or restricted for use.

Reliability of information

No representation or warranty has been made to the recipient of this technical document or its advisors as to the accuracy or completeness of the information, statements, opinions or matters (express or implied) arising out of or derived from this technical document or any omission in this document or any other written or oral information or opinions submitted now or in the future by any interested party or their advisors. The Sendde Coins presented in this white paper are under development and are continually being updated, including but not limited to key control features and specifications. If and when Sendde Coins are finalized, they may differ materially from the description provided herein.

No representation or warranty is made as to the achievement or reasonableness of any plans, future projections or prospects, and nothing in this document is or should be construed as a promise or representation regarding the future. Nevertheless, our team will use its best efforts to achieve all of its objectives.

Risk warning

Buying Sendde Coins involves significant risk and can result in the loss of some or all of your money. Before purchasing SETC coins, the risks, including those listed in any other documents, should be carefully evaluated and taken into account. Buyers should purchase Sendde coins only if they fully understand the nature of Sendde coins and accept the risks inherent in Sendde coins. Crypto Coins may be susceptible to: expropriation and/or theft; hackers or other malicious groups or organizations may attempt to interfere with our system/network in various ways, including malware attacks, denial of service attacks, consensus attacks, Sybil attacks, smurfing and spoofing, which could result in loss of your crypto coins or loss of your ability to access or control your crypto coins. In this regard, our team will work to securely store funds to prevent unwanted interference

Security

Potential purchasers should independently evaluate the nature of the risks involved and their propensity to take them, and consult with their advisors before make any decisions.

Thanks for your attention
